PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with strong foundations in Data Science, Artificial Intelligence, Machine Learning, Python, and software development. Experienced in building practical projects involving data analysis, AI-driven applications, and real-world problem solving. Hands-on exposure to Linux-based environments, networking technologies, and software development practices. Seeking opportunities to apply analytical and technical skills to build scalable, data-driven solutions.

TECHNICAL SKILLS

Programming Languages	: Python, C++, SQL, HTML
Data Science & AI/ML	: Data Science, Machine Learning, Artificial Intelligence, Data Analysis, Data Visualization, NLP, Predictive Analytics
Libraries	: Pandas, NumPy, Matplotlib, Scikit-learn, OpenCV
Databases	: MySQL
Tools & Platforms	: Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Power BI, Flask, Linux
Other Skills	: Software Development, Problem Solving

PROJECTS

AttackPathAI | Python, AI/ML, Cybersecurity

- Developed an AI-assisted attack-path analysis tool that models relationships between assets, vulnerabilities, and potential attack paths.
- Identified potential attack chains and visualized attack progression to show how threats could move across a system.
- Supported risk analysis and prioritization of attack paths to help focus remediation efforts.

EduReview AI | Python, NLP, AI/ML

- Built an AI-powered platform that applies NLP to student reviews and educational feedback.
- Performed sentiment analysis and review categorization to extract actionable educational insights.
- Presented findings through an interactive dashboard for clear interpretation of feedback trends.

Listening Lens – Spotify Analyzer | Python, Data Analysis, Data Visualization

- Developed a Spotify analytics application to analyze listening behavior and uncover personalized music patterns.
- Applied data analysis and visualization in Python to explore listening trends and user preferences.
- Built an interactive dashboard delivering personalized, data-driven music insights.

INTERNSHIPS / EXPERIENCE

Software Developer Intern | Zilogic Systems | June 2026 – July 2026

- Gained hands-on exposure to Linux environments, command-line workflows, and software development practices.
- Worked with Netgear networking technologies, strengthening debugging, testing, and troubleshooting skills.
- Studied system-level interactions between software, Linux-based systems, and networking technologies.

Data Science Intern | NSP Nexus | Jan 2026 – Feb 2026

- Performed data preprocessing and exploratory data analysis on datasets using Python.
- Created data visualizations to communicate patterns and findings.
- Assisted in developing machine learning models and preparing analytical reports.

Cyber Security Intern | SkillForge E-Learning Solutions Pvt Ltd | Jun 2025 – Jul 2025

- Learned cyber security fundamentals and ethical hacking concepts using Kali Linux.
- Performed basic vulnerability scanning and network security analysis tasks.

CERTIFICATIONS

- Python for Data Science, AI & Development — IBM / Coursera
- Data Analytics Job Simulation — Deloitte / Forge
- Generative AI-Powered Data Analytics Job Simulation — Forge
- Introduction to Cyber Security — Simplilearn

EDUCATION

B.Tech – Computer Science and Engineering

B.S. Abdur Rahman Crescent Institute of Science and Technology

CGPA: 9.08 / 10.0

Expected Graduation: 2027
